Introducing Mobile Physiotherapy Services in Kelowna

I am pleased to inform you that Core Connection Mobile Physiotherapy is now serving the Kelowna & West Kelowna area. We specialize in providing high-quality, in-home physiotherapy services tailored to meet the needs of your diverse clientele, including:

- **Seniors:** Post-hospitalization rehab, balance and fall prevention, chronic pain management.
- **Orthopaedics:** Post-surgical rehabilitation, musculoskeletal injuries.
- **Neurological:** Stroke recovery, Parkinson's disease, multiple sclerosis.
- **ICBC & Worksafe:** Supporting hospital discharge patients with customized in-home rehab programs.

In-home physiotherapy has shown significant benefits for patients, especially in improving functional outcomes and increasing compliance. Research suggests that receiving care in a familiar environment can enhance motivation and comfort during recovery (McGlinchey et al., 2021). Additionally, in-home rehabilitation has been proven to reduce hospital readmissions and improve overall quality of life for individuals with chronic conditions (Smith et al., 2020).

We would be happy to collaborate with your team to ensure comprehensive care for your patients. Please feel free to contact us for more information or to discuss referrals.

Sincerely,

Lauren Sutherland
Founder, Core Connection Mobile Physiotherapy
